BASIC ROBOTICS WORKSHOP | 2025

Bangladesh Army University of Science and Technology

- Gained hands-on experience in IoT technology and applications.
- Worked on real-world IoT solutions, integrating hardware and software.
- Collaborated with peers to develop innovative IoT-based projects.

RESEARCH WORK

CONFERENCE PAPER | 2026

QPAIN 2026

- Paper Title: An IoT-Based QR-Code-Enabled Smart Medicine Box for Reducing Prescription Errors and Improving Medication Adherence
- Keywords: Sensor Networks for IoT, Smart Medicine Box, Biomedical Monitoring, Real-Time Embedded Systems, Medication Adherence

Projects

GARMENTS FACTORY ERP SYSTEM | 2025

- Developed a desktop-based ERP system for garments factory operations using Java, JavaFX, Swing, and SQL.
- Implemented modules for inventory, production, employee management, and order tracking.
- Designed and optimized SQL database to ensure efficient data storage and retrieval.
- Built interactive GUI with JavaFX & Swing for easy navigation and user experience.
- Automated reporting and workflow processes to reduce manual errors and improve productivity.

A VIRTUAL FARMER | 2026

- Developed a multi-platform farm automation system with desktop, mobile, and web applications.
- Built desktop software in Java for automated crop planning, livestock tracking, and resource management.
- Designed a web platform using HTML, CSS, React to monitor farm activities and analytics remotely.
- Integrated MongoDB for centralized, real-time farm data storage and synchronization.
- Automated farm operations (irrigation scheduling, inventory updates, financial records) to improve efficiency and reduce manual effort.

EDUCATION

R.B. Govt. High School 2016 - 2020

Secondary School Certificate |Science

GPA: 5.0 / 5.0

Rajshahi Govt. City College 2020 - 2022

Higher Secondary Certificate |Science

GPA: 5.0 / 5.0

Bangladesh Army University of Science and Technology 2024 - Present

Bachelor of Computer Science and Engineering
